

Claim 9, line 1; Claim 25, line 1; and Claim 26, line 1: in each case delete "24" and insert therefor --27--.

Rewrite claim 19 as the following new claim:

<sup>2</sup>  
D<sup>2</sup>  
~~28~~<sup>6</sup>. A method of producing an anti-oestrogenic effect in a subject in which such an effect is desired which comprises administering to said subject an anti-oestrogenic effective amount of a compound as defined in claim ~~25~~<sup>3</sup> or a non-toxic pharmaceutically acceptable salt thereof.--

Claim 20, line 1: delete "19" and insert therefor --28--.

#### REMARKS

Reconsideration of the final rejection is respectfully requested. By the amendments requested above, the claims have been limited to the compounds in which R is chloro, compositions containing them and their use. As the Examiner has noted, the effectiveness of the compounds wherein R is chloro has been demonstrated by the evidence submitted in the parent application. While it is believed that one skilled in the art would accept this evidence as indicating the utility of the compounds wherein R is bromo, to simplify the issues, and put the application into condition for allowance, reference to the bromo compounds has been removed.
